EXPERIENCE

INTERNSHIP | Web development   remote | august 2024 – september 2024

I successfully completed an internship at **CodeSoft** , where I gained valuable experience in web development, focusing on front-end technologies. During this time, I worked on real-world projects, enhancing my skills in HTML, CSS, JavaScript. This opportunity helped me strengthen my problem-solving abilities and broaden my knowledge of modern web frameworks

SKILLS

Programming Languages	python, C, Java, DBMS, Data Structures using python
Libraries/Frameworks	React, JavaScript
Tools / Platforms	VsCode, Git, HTML, CSS
Databases	SQL

PROJECTS / OPEN-SOURCE

DIET PLAN FOR DISEASE   HTML,CSS,JAVASCRIPT

The Food Diet Plan for Disease project provides tailored dietary recommendations for individuals based on their specific medical conditions. It aims to help manage symptoms and improve health through targeted nutrition plans.

AIR CANVAS USING OPENCV   OpenCv Library,Python,MediaPipe

The Air Canvas using OpenCV project allows users to draw in the air by tracking hand movements through a camera. It leverages computer vision techniques to create an interactive, real-time drawing experience without physical tools.
